

WHAT IS CLAIMED IS:

1 For use with a vacuum cleaner having an intake nozzle, a
2 receptacle and a blower that creates a flow from the nozzle
3 to the receptacle so as to carry dirt from the nozzle into
4 the receptacle, a pre-scented and custom treated card
5 comprising:

- 6 a. a card formed from a material that is capable of
7 absorbing a fragrance; and
- 8 b. oil containing at least one of a fragrance, an anti-
9 bacterial agent and an odor eliminator disposed on said
10 card so that said card may be cut into a plurality of
11 strips which can then be bent at their centers so said
12 strips do not to stick to the side of the receptacle,
13 thereby potentially increasing airflow across the surface
14 area of said strips when said strips are inserted into
15 the receptacle through the opening of the receptacle.
